

QGIS Application - Bug report #11627
uncheck "case sensitive" in legend filter

2014-11-12 07:27 AM - matteo ghetta

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Attribute table	
Affected QGIS version:	2.6.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 19880
Description		
It's quite confusing having this option set by default.

Are you referring to the filter options in "Browser" dock widget?

#2 - 2014-11-13 01:12 AM - matteo ghetta

I'm talking about the column filter in the attribute table.
One can look for something in a column (e.g. 'italy' in the field 'admins') but the case sensitive option is enabled by default.

Hi, any news with this small feature request?

#4 - 2015-06-19 02:06 AM - Paolo Cavallini

Same thing for filter for field names in the Expressions.
