

QGIS Application - Bug report #11630

editing a sorted field: the field does not refresh properly

2014-11-12 11:31 AM - Gavin Fleming

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:		
Affected QGIS version:	2.6.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #: 19883
Description		
<p>when editing a table... and you sort a field... if you edit the attributes of the cells in the sorted field it doesn't show you it changed the values unless you force a refresh by re-sorting or re-opening the table. e.g. a value can be x. You type a string and hit Enter and the value reverts to x. Yet you can see it's updated if the table is redrawn.</p>
