

QGIS Application - Bug report #11673

Polygon shapefile - centroids fill bug

2014-11-17 08:39 AM - Simon Georget

Status:	Closed	
Priority:	High	
Assignee:		
Category:		
Affected QGIS version:	2.6.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #: 19920
Description		
Hi, I tried to use the centroid fill to process Unique Symbol classification. And it generates extra markers. Generating centroids and displaying them works well. See screenshot below : qgis_centroidsfill_bug I'm using the nightly repository (debian-nightly). By the way it still appears as * 2.5.* <u>See About export :</u> Version de QGIS 2.5.0-Master Révision du code exported Compilé avec Qt 4.8.6 Utilisant Qt 4.8.6 Compilé avec GDAL/OGR 1.10.1 Utilisé avec GDAL/OGR 1.10.1 Compilé avec GEOS 3.4.2-CAPI-1.8.2 Utilisé avec GEOS 3.4.2-CAPI-1.8.2 r3921 Version du client PostgreSQL 9.3.4 Version de SpatiaLite 4.1.1 Version de QWT 5.2.3 Version de PROJ.4 : 480 Version de QScintilla2
