

QGIS Application - Bug report #11687

Selected encoding disappears when duplicating layer

2014-11-19 06:40 AM - Oskar Karlin

Status:	Closed	
Priority:	Normal	
Assignee:	Jürgen Fischer	
Category:	Vectors	
Affected QGIS version:	2.6.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 19931
Description		
<p>I have a shape file layer that I have changed the Encoding from System to ISO-8859-1. When I duplicate this layer, the new layer gets default System encoding. This is annoying since I'm making quite a lot of duplicates...</p>
