QGIS Application - Bug report #11714
Outdated file in Master branch

2014-11-22 07:57 AM - zirneklitis -

Status:	Closed			
Priority:	Normal			
Assignee:	QGIS Translation Team			
Category:	Translations and international			
Affected QGIS version:	2.6.0	**Regression?:**	No
Operating System:	Any	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	wontfix
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	19952

Description

The file
https://github.com/qgis/QGIS/blob/master/i18n/qgis_lv.ts
is outdated.

The file
https://github.com/qgis/QGIS/blob/release-2_6/i18n/qgis_lv.ts
is more recent and more complete.

History

#1 - 2014-11-22 08:26 AM - Jürgen Fischer

- Resolution set to wontfix

- Status changed from Open to Closed

The translations are maintained in transifex.   The ts files are only pulled in and updated in the repository once shortly before the release - to avoid extensive growth of the repository (ts files have a awful signal/noise ratio).

The nightly builds of master (debian/ubuntu and windows) automatically pull the current translation in from transifex.

Use scripts/pull_ts.sh to fetch the current translations from transifex if you like to have current translation in local builds too.
