Unsure about that: the behaviour of all other tools have been unified, loading the results by default, so I think it should be less surprising if also this is on, although I understand that loading potentially hundreds of rasters is boring.

#### #2 - 2017-02-09 12:48 PM - Alexander Bruy

- Resolution set to fixed/implemented

- Status changed from Feedback to Closed

- Category changed from Rasters to Processing/GDAL

Should be fixed in Processing front-end. Please reopen if necessary
