

QGIS Application - Bug report #1174

QGIS slows down PostgreSQL

2008-07-22 09:03 AM - Paolo Cavallini

Status:	Closed	
Priority:	Low	
Assignee:	Jürgen Fischer	
Category:	Data Provider	
Affected QGIS version:		Regression?: No
Operating System:	Debian	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 11234
Description		
<p>When qgis (0.10 on deb) queries the db (to load geometries) often postgres takes up a very large amount of CPU, for many minutes. I once had even to kill postgres (!!). Does this happens to others? We never noticed it before. Tested on several db.</p>		

History

A possible explanation here:

http://www.rigacci.org/wiki/doku.php/tecnica/gps_cartografia_gis/postgis#quinto_esempio

(in IT, but at least some of you can understand).

#2 - 2008-08-27 03:12 AM - Jürgen Fischer

can you please verify this with current trunk?

#3 - 2008-09-09 03:48 AM - Paolo Cavallini

- Resolution set to fixed

- Status changed from Open to Closed

Tested, seems entirely solved
