Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	19974

Description

A number of users are having problems with older version of a plugin in their home dir (this happens especially often with Processing) masking the system one.

IMHO the behaviour is correct, but the user should be warned (e.g. "You are using an older version of a plugin, a new one is available on your system: do you want to remove the old one?").

History

#1 - 2015-04-09 05:39 AM - Giovanni Manghi

- Affected QGIS version changed from 2.6.0 to master

- Priority changed from Low to Normal

#2 - 2017-05-01 01:07 AM - Giovanni Manghi

- Easy fix? set to No

- Regression? set to No

#3 - 2017-10-19 08:24 PM - Borys Jurgiel

- Description updated

- Tracker changed from Bug report to Feature request

#4 - 2018-03-07 04:31 PM - Paolo Cavallini

Unchanged in QGIS 3.
