

QGIS Application - Bug report #11742

Band jumps back to Band 1 each time properties are made on a layer

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Rasters	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 19976
Description		
<p>If I have an RGB image that I'd like to show as Singleband Pseudocolor I can select for example Band 2 (green) and everything is fine when I click OK and leave that properties window. But if I open the window again the Band selection has jumped back to Band 1 (red) and I need to select Band 2 (Green) again before clicking OK again. Pretty annoying.</p>
