| <p>When editing the appearance of a line vector layer, applying the size scale field under "Advanced" does nothing. This feature is vital to me so I'm going to have to go back to 2.4 until it's fixed in 2.6!</p> |                   |                                     |
