Description

Hi,

It would be convenient if the Unlock button allows to unlock only the selected items.

In previous versions , it was possible to select items directly keyed in Layout.

Although the "Elements " menu was added, it is regrettable that this function have disappeared.

I wish there have the following options:

- Button "Lock all items"

- Button "Lock selected items "

- Button "Unlock all items"

- Button "Unlock selected items "

- Return of the possibility of Origin Lock select items directly in the layout.
