#### History

##### #1 - 2014-12-09 04:31 AM - Sandro Santilli

Note that the feature selection highlight (from select features tool) renders correctly (in yellow), so this is specific to identify feature (dunno what's the difference in rendering)

##### #2 - 2014-12-30 01:27 AM - Giovanni Manghi

- File *rotation\_selection.mp4* added

it renders correctly, when it works. See the attached screencast that shows that the selection tool works, but not in a reliable way (every time the mouse stops over a polygon a click is given to try make a selection).

##### #3 - 2014-12-30 02:24 AM - Sandro Santilli

Giovanni please file another ticket if the selection tool does not work correctly.

My observation was about the highlighting (due to selection) retaining correct position as the map was rotated.

This ticket is about the highlighting (due to identify feature) NOT retaining it.

##### #4 - 2015-01-03 12:03 PM - Sandro Santilli

- Resolution set to fixed/implemented

- % Done changed from 0 to 100

- Status changed from Open to Closed
