QGIS Application - Bug report #1182
Project 'dirty' flag not set for loading layers (and other operations)

2008-07-25 02:59 AM - barryrowlingson -

Status:	Closed		
Priority:	Low		
Assignee:	Tim Sutton		
Category:	Project Loading/Saving		
Affected QGIS version:		**Regression?:**	No
Operating System:	All	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	11242

Description

Start Qgis, load a layer (vector or raster), then do File... Exit. Qgis quits without prompting to save the project.

Various other operations don't set the project dirty flag - for example changing the symbology of a point layer. Things that do call the dirty flag are here:

http://doc.qgis.org/classQgsProject.html#3905fa4118ae850dbdb920f8805c24bbc1a

Things that change the project should call: [[QgsProject]]::instance()->dirty(true)

(Python plugins should do: [[QgsProject]].instance().dirty(True))

History

#1 - 2008-07-25 04:58 AM - Tim Sutton

- Resolution set to fixed

- Status changed from Open to Closed

Fixed in commit:5133fc7e (SVN r8898), commit:96a66727 (SVN r8899) and .

I set the dirty flag in qgisapp whenever a layer is added (commit:5133fc7e (SVN r8898)), removed (), and in vector and raster properties when apply() is called (commit:96a66727 (SVN r8899)).
