Pull Request or Patch supplied:		**Resolution:**	duplicate
Easy fix?:	No	**Copied to github as #:**	11243

Description

The GRASS tools GUI (i.e. the graphical list of available GRASS modules
in the GRASS plug-in) is lacking support for an input widget that allows
users to choose more than one input map. Some useful GRASS modules such as
v.patch and **r.patch** require more than one one input map and are thus
currently not available through the GUI.
