QGIS Application - Bug report #11837
FILTER parameter not working

2014-12-10 05:09 AM - Bernhard Ströbl

Status:	Closed		
Priority:	Severe/Regression		
Assignee:	Marco Hugentobler		
Category:	QGIS Server		
Affected QGIS version:	2.6.1	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed/implemented
Crashes QGIS or corrupts data:		**Copied to github as #:**	20055

Description

The FILTER parameter has no effect on the features returned by the WMS GetMap request.

Affected are at least versions 2.6.1.1 and master.

Tested on Linux but I assume any platform is affected.

History

#1 - 2014-12-10 09:56 AM - Giovanni Manghi

- Status changed from Open to Feedback

this was an issue in previous qgis server releases?

#2 - 2014-12-10 11:17 PM - Bernhard Ströbl

No it used to work (if I recall correctly) in 2.6.0
The FILTER parameter is a feature that has been introduced in QGIS server long ago (not sure if it was available in the 1.* releases, though). Marco will know.

#3 - 2014-12-11 12:49 AM - Giovanni Manghi

- Operating System deleted (any)

- Priority changed from High to Severe/Regression

- Status changed from Feedback to Open

then I'll tag this as blocker.

#4 - 2015-02-12 08:42 AM - René-Luc ReLuc

Does this issue is linked to #12090?
Does the commit 27bf440eace80c4f56c0f191706dfe1b046bcc96, Server: fix loading of dependent layers when using the getFeature() function?

#5 - 2015-02-13 04:27 AM - Bernhard Ströbl

Hmm,

seems to be fixed, Filter is working as expected. Shall we close this ticket now?

#6 - 2015-02-13 08:36 AM - Jürgen Fischer

- Status changed from Open to Closed

- Resolution set to fixed/implemented

If it's fixed - we should close it.
