- Tag set to rotation

Could you be more specific about what you'd like to see happen ?

See also #11816 for an example of specific bug.

Do we want to keep this to have the rotated viewport shown in the overview ?

Or do you want to see the map rotated, in the overview ?

I like the idea of rotation not affecting the overview, for example.

I was sure that this is evident. When main map is rotated overview is not rotated, but it should

To be honest I tought it would have been nicer to NOT rotate the overview map but rather the indicator of the viewport.

Should this go through the design group ?

Priority of this does not seem high to me, what do others think ?

Nathan, Jurgen ?

- Priority changed from High to Normal

IMHO the overview should **not** be rotated; the red rectangle should.

#6 - 2015-01-09 12:02 AM - Andreas Neumann

agreed that the overview map should not rotate, but the indicator should.
