

QGIS Application - Bug report #11902

Sorting layers in legend using python in QGIS 2.6

2014-12-21 11:40 PM - Mohanakarthick Balan

Status:	Closed	
Priority:	High	
Assignee:		
Category:		
Affected QGIS version:	2.6.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	No	Copied to github as #: 20112
Description		
<p>In QGIS 2.2 , I was able to sort in alphabetical order the layers simply using this:</p> <pre>self.maplegendtree = iface.mainWindow().findChild(QTreeWidget, "theMapLegend") self.maplegendtree.sortItems(0, Qt.AscendingOrder)</pre> <p>I search a lot and I understand there where some changes with the legend in QGIS 2.6 ...</p> <p>How to do it now using QGIS 2.6? Any clue?</p> <p>Thank you!</p> <p>Regards, Mohanakarthick</p>
