

QGIS Application - Bug report #11960

OK and Cancel button broken on WMS-Layer properties dialog

2015-01-07 01:38 AM - Richard Duivenvoorde

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	GUI	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 20168
Description		
<p>When you load a WMS or WMTS layer in QGIS master.</p> <p>And after loading look at the properties of the layer (with me by double clicking on the layer name), you are not able to close that dialog anymore via clicking on OK or Cancel.</p> <p>Only using 'escape' closes the window.</p> <p>On IRC Nyal thought that maybe commit:1a46c40 was related</p>

Revision c11319b8 - 2015-01-07 08:48 PM - Nyal Dawson

Fix button box in options dialog not working (fix #11960)

QgsOptionsDialogBase was incorrectly finding the projection selector's buttonBox widget and attaching the connections to that widget, rather than the dialog's widget.

Rename projection selector's button box to avoid this conflict.
