

## QGIS Application - Bug report #11976

### qgis:grid parameter order changed breaking dependent scripts

2015-01-11 06:44 AM - Anita Graser

<b>Status:</b>	Closed	
<b>Priority:</b>	Low	
<b>Assignee:</b>	Victor Olaya	
<b>Category:</b>	Processing/QGIS	
<b>Affected QGIS version:</b>	master	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> wontfix
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 20183
<b>Description</b>		
<p>Most likely qgis:grid is not the only algorithm which is affected by problem.</p> <p>See <a href="https://github.com/qgis/QGIS-Processing/issues/8">https://github.com/qgis/QGIS-Processing/issues/8</a></p>		

#### History

##### #1 - 2015-01-11 08:26 AM - Anita Graser

I fixed the two scripts in the QGIS Processing repository but I'm concerned why this happened. Was the parameter order changed on purpose?

##### #2 - 2015-05-10 01:02 AM - Giovanni Manghi

- Target version changed from Version 2.8 to Version 2.8.2

##### #3 - 2015-05-14 03:02 AM - Giovanni Manghi

- Target version changed from Version 2.8.2 to Version 2.10

##### #4 - 2015-06-21 10:51 PM - Victor Olaya

- Priority changed from High to Low

Not sure we should still consider this a problem

The change was a minor API break, but it was already sometime ago and no one complained...so I guess that reverting it now makes no sense. Scripts in the repo are fixed, so we should leave it like that.

It is not a change that affects other algorithms, it was just a specific change of syntax

Please, close the ticket if you agree with this

##### #5 - 2015-06-22 12:28 AM - Anita Graser

- Status changed from Open to Closed

I guess it's fine if the scripts in the repo are fixed. I hope this kind of issue does not happen on a regular basis.

##### #6 - 2015-06-22 12:28 AM - Anita Graser

- Resolution set to wontfix
