

QGIS Application - Feature request #1199

let the user specify overviews format and compression

Category:	GDAL Tools	
Pull Request or Patch supplied:	No	Resolution: fixed
Easy fix?:	No	Copied to github as #: 11259
Description Please let the user use either Erdas or TIFF external overviews and set compression on/off. In case of TIFF overviews let him choose compression scheme DEFLATE/LZW/PACKBITS (JPEG maybe too?); hint that DEFLATE compresses best of the 3 and better than Erdas RLC compression too, but that Erdas overviews are supported also in non-GDAL dependent software like [[ArcGIS]] and Erdas Imagine, which improves compatibility. I'm not sure if internal overviews can be compressed for non-compressed rasters and vice-versa; that's something to investigate.		

History

#1 - 2011-12-16 01:58 PM - Giovanni Manghi

- Target version changed from Version 1.7.0 to Version 1.7.4

#2 - 2011-12-25 12:18 PM - Giovanni Manghi

- Pull Request or Patch supplied set to No
- Target version changed from Version 1.7.4 to Version 1.8.0
- Assignee changed from *ersts* - to Giuseppe Sucameli
- Status changed from Open to Feedback
- Category changed from Rasters to GDAL Tools

All this options should be already available (or eventually easily added) in the "build overviews" tool in the raster menu. Please leave feedback.

#3 - 2012-04-15 10:06 AM - Giovanni Manghi

- Target version changed from Version 1.8.0 to Version 2.0.0

#4 - 2012-10-06 02:34 AM - Pirmin Kalberer

- Target version changed from Version 2.0.0 to Future Release - Nice to have

#5 - 2012-12-31 01:24 AM - Paolo Cavallini

- Assignee changed from Giuseppe Sucameli to anonymous -

#6 - 2013-03-16 09:34 AM - Giovanni Manghi

- Resolution set to fixed
- Status changed from Feedback to Closed

#7 - 2014-06-29 10:12 AM - Jürgen Fischer

- Assignee deleted (anonymous -)
