<b>Description</b>		
<p>It looks like the "distance to map frame" parameter of grid decoration annotations is not retained.</p> <p>To test:</p> <ul style="list-style-type: none"><li>- Enable grid, set show annotations and "distance to map frame" = 16</li><li>- Click on Apply, see grid annotation offsetted from frame</li><li>- Close dialog (OK)</li><li>- Re-open GRID dialog, the distance to map frame is now 0</li></ul> <p>NOTE: the value is correctly saved to project file and used from there, but it is not shown correctly in the dialog.</p>
