

## QGIS Application - Bug report #12000

### Vector columns "comment" option is inconsisent

2015-01-18 12:54 PM - Giovanni Manghi

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	GUI	
<b>Affected QGIS version:</b>	master	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> end of life
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 20204
<b>Description</b>		
<p>When adding new columns in vector layers, the option to add a column "comment" is inconsistent.</p> <ul style="list-style-type: none"><li>- it is available in some place for shapefiles (for example "vector properties &gt; fields &gt; add column" or "table of attributes &gt; add column"), but not others ("layer &gt; create layer &gt; new shapefile") and anyway for such data formats it should not show at all, in fact if you try to add one comment it is immediately discarded.</li><li>- on the other hand for formats where it makes sense (ex: PostgreSQL), does not show anywhere like it should, like DB Manager and the Field Calculator.</li></ul>		

#### History

##### #1 - 2017-05-01 01:07 AM - Giovanni Manghi

- *Easy fix? set to No*
- *Regression? set to No*

##### #2 - 2019-03-09 04:09 PM - Giovanni Manghi

- *Resolution set to end of life*
- *Status changed from Open to Closed*

**End of life notice: QGIS 2.18 LTR**
