Not reproducible with master under Windows and Linux. I suspect this is local issue.

#2 - 2015-01-22 06:46 AM - Giovanni Manghi

- OS version set to 14.04

- Operating System set to Ubuntu

- Status changed from Open to Feedback

Hi Alex,

not sure is a local issue. I have a (very) clean installation of master from the nightly build repository. Anyway I'm looking for feedback from other users with the same installation. I confirm on Windows is OK.
