<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 20229
<b>Description</b>		
<p>Hi, there is a bug when I make a map on Qgis using Open layer plugin because when I using the map composer to make a pdf or a image the result have a scale problem. I have in map composer the good view and scale but the result after export is bad and I don't know why. The problem is for both 2.6.0 version and 2.6.1.</p>
