

QGIS Application - Feature request #12037

Allow transfer of rasters from QGIS to PostGIS through DBManager

2015-01-22 07:31 AM - Guillaume Larocque

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Unknown	
Pull Request or Patch supplied:		Resolution:
Easy fix?:	No	Copied to github as #: 20240
Description		
<p>There doesn't appear to be a way to transfer files from QGIS to PostGIS in DBManager, either through a DBManager menu item or through drag and drop from the filesystem, QGIS Browser or QGIS layer manager. Note that this issue is not the same as #4777, which describes importing FROM QGIS to PostGIS. That part is already implemented. What this issues is asking for is the other way around... from QGIS to PostGIS.</p>
