QGIS Application - Bug report #12043
Error eliminating classes in symbology

2015-01-23 06:04 AM - Pedro Venâncio

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Symbology		
Affected QGIS version:	master	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	
Crashes QGIS or corrupts data:		**Copied to github as #:**	20246

Description

This one is not easy to explain. Please see the screencast:

https://dl.dropboxusercontent.com/u/5772257/qgis/qgis_style_classes.avi

Basically, in the symbology, when I try to delete several classes, if the selection is made individually (with Ctrl button pressed) from the bottom to the top, classes that are below are not eliminated. If the selection is made with Shift, or Ctrl but from the top to the bottom, the delete works as expected.

This happens both in 2.6.1 as in master.
