QGIS Application - Bug report #12080
Copy and paste drops the attribute value

2015-01-28 09:57 AM - Saber Razmjooei

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Digitising			
Affected QGIS version:	2.6.0	**Regression?:**	No	
Operating System:	Windows	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:		**Copied to github as #:**	20276	

Description

When copy and paste a feature from one layer to another layer (in my case Shapefile), the attribute values are set to NULL.

History

#1 - 2015-01-28 10:06 AM - Saber Razmjooei

The bug also appears if you copy and paste a feature within the same layer.

#2 - 2015-01-28 12:45 PM - Borys Jurgiel

...and probably only on Windows (not replicable on Debian and the same layer)

- Status changed from Open to Feedback

Hi Saber,

this should be duplicate of #11983 (it was about spatialite but later confirmed for other formats), anyway I just tested on both linux and windows on the latest master, and seems fixed to me, cheers!

- Status changed from Feedback to Closed

I confirm that is working now with the latest master, hence closed.
