

QGIS Application - Feature request #12081

Moving 2 nodes at the same time

2015-01-28 10:27 AM - Saber Razmjooei

Status:	Closed	Resolution: Copied to github as #: 20277
Priority:	Low	
Assignee:		
Category:	Digitising	
Pull Request or Patch supplied:	Not supplied	
Easy fix?:	No	
Description		
<p>Imagine, you have 2 lines where the end of one is snapped to the start of the other line.</p> <p>It will be great to have an option in node tool, so that when you move the snapped node, it will move the node from the other feature in the same operation.</p>

- Status changed from Open to Closed

this already exists.

go in options -> snapping and check "topological editing".
