QGIS Application - Bug report #1210
Postgis: columns with enum datatypes are not shown in attribute table

2008-08-06 11:12 PM - Andreas Neumann

Status:	Closed		
Priority:	Low		
Assignee:	Jürgen Fischer		
Category:	Data Provider		
Affected QGIS version:		**Regression?:**	No
Operating System:	All	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	11270

Description

Attribute tables with Postgis sources don't show columns with data type "enum". Enums are available in [[PostgreSQL]] 8.3 or later.

Ideally, the attribute table would show a choice of all available enum values as a drop-down list, but in the meanwhile it would be good enough if they would be shown as plain text.

Thank you for having a look at this bug.

Associated revisions

Revision 9dbe4f57 - 2008-08-27 10:00 AM - Jürgen Fischer

postgres provider update

- track open cursors and commit transaction whenever no open cursors are left
- close cursor after immediately after feature retrieval (releases locks earlier)
- wrap postgres calls in Conn class
- introduce Result class to handle PQclear mostly transparently (fixes minor leaks)
- remove executeDbCommand method (duplicate of PQexecNR)
- introduce support for estimate_extents (fixes #582)
- introduce support for enum types (fixes #1210)
