QGIS Application - Feature request #12126
Export/Print Print Composers from the command line

Easy fix?:	No	**Copied to github as #:**	20320

Description

Often, I have projects with many print composers defined. These projects involve dynamic data that changes frequently (pulled from some backend database). It would be good if there were a way to export print composers (which have been previously defined) from the command line, so that this can be batch/shell scripted.

Something like

qgis --export-print-composer name-of-composer -f pdf -o output-file.pdf

History

#1 - 2015-02-04 08:11 AM - Giovanni Manghi

- Target version set to Future Release - Nice to have

- Category set to Map Composer/Printing

#2 - 2017-05-01 12:47 AM - Giovanni Manghi

- Easy fix? set to No
