

QGIS Application - Feature request #12157

Add "Select by Location" button to Attributes toolbar

2015-02-09 07:12 PM - Corey Burger

Status:	Open	Resolution: Copied to github as #: 20350
Priority:	Normal	
Assignee:		
Category:	GUI	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
The Attributes toolbar has select and select by expression, but select by location is buried under Vector>Research Tools>Analysis.

- Category set to GUI

#2 - 2015-02-21 04:17 PM - Anita Graser

- Target version set to Future Release - Nice to have

Might make sense to have a "Selection" toolbar. Seems odd to have these tools in a toolbar called "Attributes".
