QGIS Application - Feature request #1218
grass modules tree default open to one or two levels

2008-08-14 12:40 PM - jaadfoo -

Status:	Closed		
Priority:	Low		
Assignee:	nobody -		
Category:	GUI		
Pull Request or Patch supplied:		**Resolution:**	fixed
Easy fix?:	No	**Copied to github as #:**	11278

Description

With so many Grass functions present in QGIS now, it doesn't seem efficient to start with the modules tree fully expanded. I think it would be easier to navigate if only the first two levels were expanded (screenshot attached).

History

- Resolution set to fixed

- Status changed from Open to Closed

now module tree is closed (only first level is shown). A correct behaviour IMHO, especially considering that now the modules are searchable
