

QGIS Application - Bug report #12225

symbology size scale field problem in spatialite layer

2015-02-18 04:05 PM - Matt Pitts

Status: Closed	
Priority: Normal	
Assignee:	
Category: Symbology	
Affected QGIS version: 2.6.0	Regression?: No
Operating System: windows 7	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: duplicate
Crashes QGIS or corrupts data: No	Copied to github as #: 20413
Description	
When trying to set the size scale for scale a point layer based on a count field in a spatialite layer the count field is not shown in the list of possible fields to choose. However using this exact same layer as a shapefile the function works perfectly
