

QGIS Application - Bug report #12241

WMTS and 2.8

2015-02-23 01:16 PM - Randal Hale

Status:	Closed	
Priority:	Severe/Regression	
Assignee:		
Category:	Web Services clients/WMS	
Affected QGIS version:	2.8.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 20426
Description In 2.6 and 2.7 (master) I could add this tile service using the WMS/WMTS icon: http://services.arcgisonline.com/arcgis/rest/services/World_Imagery/MapServer/WMTS/1.0.0/WMTSCapabilities.xml With 2.8 it appears to not being working. This works though: qgis.utils.iface.addRasterLayer("http://services.arcgisonline.com/ArcGIS/rest/services/World_Imagery/MapServer?f=json&pretty=true","raster") aster") I'm not noticing anything getting announced in the logs. So I'm no help there.

fix wmts (fixes #12241; followup 1e97b62c)

History

#1 - 2015-02-23 02:52 PM - Giovanni Manghi

- OS version deleted (7)
- Operating System deleted (Windows)
- Target version changed from Version 2.8 to Version 2.8.1
- Priority changed from Normal to Severe/Regression
- Category set to Web Services clients/WMS

Confirmed, works ok on 2.6.1, does not on 2.8 and master.

#2 - 2015-02-23 04:37 PM - Jürgen Fischer

- Status changed from Open to Closed

Fixed in changeset commit:"251aca6dca10171be67cac245e8b37553304f042".
