History

I can confirm that, using debian nightlies

1:2.9.0+git20150224+4629205+20trusty

#2 - 2015-02-24 08:19 AM - Richard Nairn

Confirmed on ubuntu-utopic as well. 2.9.0+git20150224+4629205+21utopic

#3 - 2015-02-25 07:38 AM - Filipe Dias

I'm getting a different error message:

#4 - 2015-02-25 07:40 AM - Filipe Dias

- Priority changed from Normal to Severe/Regression

I'm raising the priority because QGIS Master is currently the only option for avoiding #12233

#5 - 2015-02-25 02:43 PM - Jürgen Fischer

- Resolution set to fixed/implemented

- Status changed from Open to Closed

fixed in commit:f213254 and commit:97ace3c
