

QGIS Application - Feature request #12279

Split vector layer: add option to load results

2015-02-26 09:56 AM - Paolo Cavallini

Status:	Open	Resolution: Copied to github as #: 20462
Priority:	Normal	
Assignee:	Victor Olaya	
Category:	Processing/QGIS	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>The results of Processing:QGIS:Split vector layer are not loaded by default, and the user has the impression that nothing is done. IMHO is preferable to improve OutputDirectory by adding a new flag, something like "canLoad" and load directory contents if this flag set.</p> <p>Thanks Alex for comments.</p>
