

QGIS Application - Bug report #12336

Identify tool - Error in deselect

2015-03-08 01:25 AM - Lene Fischer

Status:	Closed	
Priority:	Severe/Regression	
Assignee:		
Category:		
Affected QGIS version:	2.8.1	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 20512
Description		
<p>If I use Autoform - it opens a new dialogbox. If I selcet another object. The previous dialogboxes does not close. And the selection remain in the map. It is not possible to deselect an open dialog.</p> <p>I can manually close the dialog in the taskbar - and the selections disappear. But If I remove a layer with open Identify dialogs - I get a minidump- crash.</p> <p>Solution: Close dialog automatic when choosing a new object.</p>

Steps to reproduce the bug :

- Create a project with a single polygon layer
- Click on a polygon with "identify features" tool and the "Auto open forms" in dialogue "Identify Results" activated. QGIS will show a "Feature attributes" dialogue as expected.
- Click on another polygon. You get a new "Feature attributes" dialogue for the new selected polygon, but the previous "Feature attributes" doesn't disappear (Is this a bug or a new feature ?). You can see the "Feature attributes" dialogues accumulate in the windows task bar besides the QGIS icon.

- If you don't activate "Auto open forms", QGIS works as expected (like in previous versions of QGIS).
- If you have "Auto open forms" activated and manually close the "Feature attributes" dialogues using the windows task bar, the dialogues **and** their associated selection in the map disappear, one by one.
- If you click on the "Clear results" button in dialogue "Identify Results" the accumulated selected features and their associated "Feature attributes" dialogues is **not** removed.
- If you make the layer with the selected objects **invisible**, the selection is **not** removed.
- If you **remove** the layer with the selected objects from the project, QGIS crashes.

#3 - 2015-03-18 10:40 AM - Matthias Kuhn

- Status changed from Open to Closed

Fixed in changeset commit:"40da097f50a250693e5fd65596bc077d44e4b3f7".
