Easy fix?:	No	**Copied to github as #:**	20515

Description

From an administrator view it would be really useful to have an option to have "INPUT FIELDS" as an option for the Print Composer. This would allow an admin or user to create a template for other users which have locked fields (like in Microsoft office) where the user is limited to providing approved text or text/numbers within a specific range. This would provide a controlled workflow for a mulitple user scenario.
