

QGIS Application - Bug report #12344

SVG Symbols not showing up Style Manager

2015-03-09 03:14 PM - Tristan Forward

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Symbology	
Affected QGIS version:	2.8.1	Regression?: No
Operating System:	Windows 7	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	No	Copied to github as #: 20520
Description		
SVG path is set to:		
Settings > Options > System > SVG Path > "C:\\OSGeo4W64\\apps\\qgis\\svg"		
Confirmed the SVG folder has SVG images.		
In Layer Properties > Style Manager > Marker Symbols only 14 marker symbols show up... cannot see any from custom path.		
I have reinstalled QGIS and delete registry keys and still no luck any ideas?		

History

Forgot to mention is import from an .XML file or website it does "work" however often the symbols are just question marks.

#2 - 2015-05-10 01:03 AM - Giovanni Manghi

- Target version changed from Version 2.8.1 to Version 2.8.2

#3 - 2015-05-14 03:02 AM - Giovanni Manghi

- Target version changed from Version 2.8.2 to Version 2.10

#4 - 2015-11-07 11:26 AM - Giovanni Manghi

- Target version deleted (Version 2.10)

#5 - 2017-05-01 01:07 AM - Giovanni Manghi

- Regression? set to No

- Easy fix? set to No

#6 - 2017-10-31 01:46 AM - Nyall Dawson

- Resolution set to invalid

- Description updated

- Status changed from Open to Closed

If I understand correctly - this is a workflow issue, not a QGIS issue.

Adding svg paths to QGIS will make them available if you create a new svg based symbol (e.g. svg marker symbol or svg fill symbol), but it will not

automatically create new symbols for each SVG present.

Please re-open if I've misinterpreted.
