

QGIS Application - Bug report #1242

WMS layers won't load

2008-08-23 06:25 PM - Steven Mizuno

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Web Services clients/WMS	
Affected QGIS version:		Regression?: No
Operating System:	All	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 11302
Description		
sometime after r9104 WMS layers won't load (r9133 is when I noticed the problem)		
1. add WMS layer dialog shows 'no projections available' for any selected layer;		
2. a WMS layer in a project that worked in earlier version won't load because of error response from server. I notice that the request listed in the error response showed CRS=EPSG:26915 instead of SRS=EPSG:26915, for example.
