Description		
The <i>plugin_builder.py</i> generates README file with incorrect URL to QGIS API reference: You really need to read the QGIS API Documentation now at: http://svn.qgis.org/api_doc/html/ In particular look at the following classes: QGISInterface : http://svn.qgis.org/api_doc/html/classQgisInterface.html [[QgsMapCanvas]] : http://svn.qgis.org/api_doc/html/classQgsMapCanvas.html [[QgsMapTool]] : http://svn.qgis.org/api_doc/html/classQgsMapTool.html [[QgsPlugin]] : http://svn.qgis.org/api_doc/html/classQgisPlugin.html As the QGIS website points, API reference is available at http://doc.qgis.org/
