Description

- open a table
- click twice on numeric column head (order by DESC)
- select several rows
- click on Move selection to top

The selection is moved to bottom instead.

cannot confirm on master.

Could you confirm it on 2.8 branch? If yes, fix should be identified and backported; if not, it should be confirmed it is not a local problem (which is unlikely, as I tested both on Debian Sid and on various Windows). Are you sure you have set the order DESC?

#3 - 2015-04-01 08:12 AM - Harrissou Santanna

I can confirm here. (osgeo4w 64bits 2.8.1, rel-dev and master)

But the sorted out field doesn't need to be a numeric one. Once there is DESC sorting, the selected rows are put at the bottom of the table (and the selected rows are also sorted out according to the DESC option).
