

QGIS Application - Feature request #12472

Print composer geographic coordinates with suffix should provide an option to specify suffix text

2015-03-28 12:52 PM - marisn -

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	Map Composer/Printing	
Pull Request or Patch supplied:		Resolution: duplicate
Easy fix?:	No	Copied to github as #: 20620
Description		
<p>As of QGIS 2.9, the geographic coordinate drawing of print composer is providing an option "degrees with suffix" that is using a localized suffix text. It is nice and user friendly feature unless the map needs to be prepared in a different language than one used for QGIS GUI.</p> <p>A workaround for the issue is to change language of QGIS interface during the preparation of map.</p>
