

QGIS Application - Feature request #12580

processing: allow define the mimum number of inputs in "ParameterMultipleInput"

2015-04-15 04:22 AM - Giovanni Manghi

Status:	Closed	Resolution: Copied to github as #: 20705
Priority:	Normal	
Assignee:	Victor Olaya	
Category:	Processing/Core	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
AS far as I understand (and I could be missing something) there is no way to allow define the minimum number of inputs in ParameterMultipleInput this could lead to have a module running without the minimum number of inputs and this will lead to errors, see for example #12517		

Associated revisions

Revision 70e2696b - 2016-03-23 04:23 PM - Alexander Bruy

Merge pull request #2936 from sept-en/master

[processing] fix filter in Processing settings dialog. Add ability to specify minimal required number of items for MultipleInput parameter (fix #11469, fix #12580)
