

QGIS Application - Feature request #12698

Add "crop" function to Printing layout

Pull Request or Patch supplied:	Resolution: duplicate
Easy fix?: No	Copied to github as #: 20804
Description	
When resizing a map in Print layout, this is automatically resized (zoomed). It would be good if a modifier (Ctrl?) could allow for cropping it (maintaining the same scale, and reducing the portion of the map displayed).
