

QGIS Application - Bug report #12728

Autodeteccion SRC al Abrir ShapeFile no detecta Latitud de Origen

2015-05-11 01:31 AM - Hernan Nasar

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Projection Support	
Affected QGIS version:	2.8.1	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: end of life
Crashes QGIS or corrupts data:	No	Copied to github as #: 20828
Description		
I open shapefile in SRC "Gauss Krugger Buenos Aires", qgis guesses CRS wrong. string PROJ4 of generated SRC is : <pre>+proj=tmerc +lat_0=0 +lon_0=-58.4627 +k=0.9999980000000001 +x_0=100000 +y_0=100000 +ellps=intl +towgs84=-148,136,90,0,0,0,0 +units=m +no_defs</pre> when it should be <pre>+proj=tmerc +lat_0=-34.6297166 +lon_0=-58.4627 +k=0.9999980000000001 +x_0=100000 +y_0=100000 +ellps=intl +towgs84=-148,136,90,0,0,0,0 +units=m +no_defs</pre> It does not detect latitude of origin * (+lat_0) I hope this helps! La proyeccion es Gauss Krugger Buenos Aires. adjunto shapefile con la proyeccion.
