

## QGIS Application - Bug report #12812

### Number\_of\_unique\_values\_in\_classes.py has disappeared

2015-05-22 09:36 AM - Paolo Cavallini

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>	Victor Olaya	
<b>Category:</b>	Processing/QGIS	
<b>Affected QGIS version:</b>	2.8.2	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> fixed/implemented
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 20908
<b>Description</b>		
<p>One module has disappeared from the interface:</p> <p>qgis/scripts/Number_of_unique_values_in_classes.py</p> <p>The file is there, it just does not show up in the Advanced interface (Name: Number of unique values in classes).</p>		

#### History

##### #1 - 2015-05-22 10:14 AM - Arnaud Morvan

Mine was displaying well.

I've tried to update it, but impossible to update this script (and only this one), error message was:

Could not download file: Number\_of\_unique\_values\_in\_classes.py

##### #2 - 2015-05-22 10:59 AM - Paolo Cavallini

- Resolution set to fixed/implemented

- Status changed from Open to Closed

Fixed commit:e25fb2d
