QGIS Application - Bug report #12874
[Composer] DEL button doesn't remove items from the print composer on Mac OS X

2015-06-04 03:40 AM - Harrissou Santanna

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	OsX UI			
Affected QGIS version:	2.8.2	**Regression?:**	No	
Operating System:	Mac OS X	**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	end of life	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	20965	

Description

Hi,

Documentation says that items in the print composer can be deleted by pressing either **Backspace** or **Delete** button. See last sentence of overview-of-the-print-composer section.

This works well on Windows system but not on Mac OS X: Only BackSpace button deletes items in the print composer.

I think Delete button has never done this job (checked from 2.4 to 2.9)

Does delete work in the main canvas to delete features?

#2 - 2015-06-08 12:50 AM - Harrissou Santanna

yes, it does.

It doesn't work in QGIS 3.03 with Windows 10 either.
