

QGIS Application - Bug report #12875

Real Centroids

2015-06-04 05:32 AM - Nag R

Status:	Closed	
Priority:	Low	
Assignee:		
Category:		
Affected QGIS version:	2.8.2	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	No	Copied to github as #: 20966
Description		
<p>I have used the Real Centroid Plug-in in QGIS Ver 2.6.0 and also in 2.8.2.</p> <p>The latest Version 2.8.2 is not correctly working which is worked correctly with 2.6.0.</p> <p>Attached screen shots of the outputs with both the versions and also attached in the Input and Outputs of both versions.</p> <p>I had also performance regression in Latest Version 2.8.2 compared with 2.6.0, Especially in table editing.</p> <p>Please check and fix the issue.</p> <p>Thanks, Nag.</p>		

History

- Priority changed from High to Low
- Status changed from Open to Feedback

This is related to your plugin and not really appropriate to be asked here. Instead, you should find the problem with QGIS which is causing your plugin to behave differently. If it is due to QGIS misbehaving, you can file a bug related to that specific feature/function.

#2 - 2015-06-04 05:37 AM - Giovanni Manghi

- Resolution set to invalid
- Status changed from Feedback to Closed

is a 3rd party plugin, you must file issues in the proper bug tracker
