

QGIS Application - Bug report #12886

delete part has no effect on single geometries

2015-06-05 12:11 AM - Denis Rouzaud

Status:	Closed	
Priority:	High	
Assignee:	Marco Hugentobler	
Category:	Digitising	
Affected QGIS version:	2.8.2	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 20976
Description		
<p>delete part does not delete a part anymore of a single geometry (handy for NULL geometries)</p> <p>although this work:</p> <ul style="list-style-type: none">- add part (so a second, do not commit)- delete part (on it)- delete part (the first one)- commit <p>=> now it has a NULL geometry</p> <p>I think this used to work before.</p> <p>Anyhow, if this is not available the icon of the map tool should not be active...</p>		

Associated revisions

Revision df31fc0f - 2015-06-14 01:13 PM - Jürgen Fischer

digitizing: disable split parts on single part geometries and allow adding and removing only part of single part features (fixes #12886, refs #12799)
